

Sharang Ukidve

UI Developer

Scan Me!

Profile

I'm a front-end developer with close to 4 years of experience in building reactive and responsive web front-ends with JavaScript. While I primarily worked with Angular, lately I have also upskilled in React and Web Accessibility.

Experience

JP Morgan Chase and Co.

Associate Software Engineer

Since Aug 2021

- Worked on multiple applications catering to Wealth Management.
- Created multiple screens with React and an internal component library.
- Worked on integrating with APIs with Axios.

Infosys Ltd.

Specialist Programmer

Jan 2021 to Jul 2021

- Worked on improving Web Accessibility on the training platform.
- Worked on building a multi-tenant Admin UI with the library.
- Upgraded the training platform from Angular 8 to Angular 12.

Senior Systems Engineer

Jul 2020 to Dec 2020

- Worked with the team to continue and successfully rewrite the training platform.
- Designed screens supporting RTL(right-to-left) layout.
- Worked on building a UI library with Angular CDK and SASS comprising reusable components, directives and pipes.

Systems Engineer

Jul 2018 to Jun 2020

- Worked on rewriting a training platform from AngularJS to Angular 8.
- Implemented numerous reusable Angular Components, Directives and Services.
- Implemented dark mode using SASS and CSS variables.
- Developed multiple screens as per designs.
